## City of Kelowna Regular Council Meeting Minutes

Date: Monday, January 25, 2016  
 Location: Knox Mountain Meeting Room (#4A)  
 City Hall, 1435 Water Street

Council Members Present: Mayor Colin Basran and Councillors Maxine DeHart, Ryan Donn, Gail Given, Tracy Gray, Charlie Hodge, Brad Sieben\*, Mohini Singh and Luke Stack

Staff Present: City Manager, Ron Mattiussi; City Clerk, Stephen Fleming and Policy & Planning Department Manager, Danielle Noble-Brandt\*

Guests: UBC-O, Deputy Vice-Chancellor & Principal, Dr. Deborah Buszard\*; Associate Vice-President, Campus & Community Planning, Michael White\*; Associate Vice-President, Finance & Operations, Rob Einarson\*; and Director, Campus Planning & Development, Anthony Haddad\*

(\* denotes partial attendance)

### 1. Call to Order

Mayor Basran called the meeting to order at 9:02 a.m.

The Guests, Dr. Deborah Buszard, Michael White, Rob Einarson and Anthony Haddad joined the meeting at 9:02 a.m.

### 2. Confirmation of Minutes

Moved By Councillor Hodge/Seconded By Councillor DeHart

R037/16/01/25 THAT the Minutes of the AM Meeting of January 18, 2016 be confirmed as circulated.

Carried

Councillor Sieben joined the meeting at 9:03 a.m.

### 3. Reports

#### 3.1 Dr. Deborah Buszard, Deputy Vice-Chancellor & Principal, UBC-O, re: UBC-O Update

Dr. Deborah Buszard:

- Introduced the team from UBC and made introductory comments.

Michael White & Anthony Haddad:

- Distributed a copy of the UBC Okanagan Campus Plan.
- Displayed a PowerPoint presentation summarizing the highlights of the UBC Okanagan Campus Plan.
- Responded to questions from Council.

The Guests, Dr. Deborah Buszard, Michael White, Rob Einarson and Anthony Haddad left the meeting at 10:27 a.m.

The meeting recessed at 10:27 a.m. The meeting reconvened at 10:36 a.m.

### 4. Resolution Closing the Meeting to the Public

Moved By Councillor Singh/Seconded By Councillor Donn

R038/16/01/25 THAT this meeting be closed to the public pursuant to Section 90(2) (b) of the Community Charter for Council to deal with matters relating to the following:

- Negotiations with the Provincial Government.

Carried

### 5. Adjourn to Closed Session

The meeting adjourned to a closed session at 10:36 a.m.

### 6. Reconvene to Open Session

The meeting reconvened to an open session at 12:35 p.m.

### 7. Issues Arising from Correspondence & Community Concerns

#### 7.1 Mayor Basran, re: Issues Arising from Correspondence

Mayor Basran:

- Advised that he didn't have anything specific to raise with Council.

### 8. Termination

The meeting was declared terminated at 12:35 p.m.

# Report to Council

**Date:** February 1, 2016

**File:** 1200-40

**To:** City Manager

**From:** Danielle Noble-Brandt, Dept. Manager, Policy and Planning

**Subject:** Healthy City Strategy - Phase 1 (Next Steps)

Report Prepared by: Michelle Kam, Sustainability Coordinator

---

## **Recommendation:**

That Council receives for information, the report from the Policy and Planning Department Manager dated February 1, 2016, with respect to the Healthy City Strategy - Phase 1 (Next Steps).

AND THAT Council direct staff to report back on the vision, principles, long term goals and targets as a next step to guide the future work of the Healthy City Strategy.

## **Purpose:**

To inform Council of the intent of the Healthy City Strategy with proposed theme areas, partnerships and activities that will be completed in 2016.

## **Background:**

Like many other cities around the world, Kelowna is grappling with how to build a vibrant, healthy and sustainable city in the face of challenges such as climate change, a growing prevalence of chronic health conditions, and an aging population. These challenges are thrusting local governments to the forefront of leadership in creative, innovative, and integrated city building.

There is growing recognition around the world that local governments are well placed to lead a collective push to address these challenges given the direct and indirect roles that governments play in creating the conditions in which citizens live, work and play. That is, how cities are planned and designed not only influences the quality of our air and water, but also the ability of people to get around, where and what type of housing is available, what food can be easily accessed and how safe and connected residents feel in their neighbourhoods.

Over the last few decades, many cities have been planned, designed and managed in ways that have separated out the activities of daily life. Low density, use-segregated, car-based development that is dependent on high levels of fossil fuel use has led to people spending more time in their cars than on their feet, and more time apart than together. Inactivity, separation and a lack of sustainability have been designed into the fabric of many cities, affecting not only individual health and well-being but also that of neighbourhoods and of the planet.

Kelowna is internationally recognized for being a four season playground, its spectacular natural setting and our active lifestyles. This has set the stage to attract a diverse population to visit, invest, work and play within the City. However, while many people are thriving, there are strong international trends that require a local response: climate change, the increasing rate of chronic health conditions, and an aging demographic.

It is well understood from evidence provided by the World Health Organization that an effective action and implementation strategy for a long-term Plan that address health and well-being requires four preconditions for change:

- Political commitment at the highest level where health, equity and sustainable development are core values in a City's policies and vision;
- A shared vision, understanding and commitment to a comprehensive approach to urban health;
- Organizational structure and processes to coordinate, manage, and support change;
- Partnership-building and networking, that involves various community groups.<sup>1</sup>

Given the Council focus areas for this term, and in preparation for an upcoming OCP renewal, advancing our Healthy City Strategy is considered favorable timing.

The Healthy City Strategy is one of the main initiatives as part of the Healthy City Partnership. This Partnership was formed in 2014 with the City of Kelowna, University of BC-Okanagan Campus, and Interior Health signing a Statement of Cooperation to demonstrate a ground-breaking collaboration between the three of the interior's largest and most complex institutions. The goal of the Healthy City Partnership is to examine and act on how these three institutions can utilize and leverage their diverse resources and interests in order to make headway on issues such as the relation between built environment, natural environment, and residents of Kelowna.

Council has recently endorsed six areas of focus for their term, of which **'healthy, safe, active & inclusive community'** has the strongest alignment with this initiative. The Healthy City Strategy will be a catalyst to help address community issues that have a direct impact on overall resident and community wellbeing.

The Healthy City Strategy is a multi-year project that will result in a long-term, integrative plan that will focus on healthy built environment, community health and quality of life for all residents. This Strategy will promote integrated decision-making and is proposed to be a

companion document to the Official Community Plan with implementable actions in six theme areas. The goal is to take actions of the OCP and provide more measurable outcomes, targets, and guidance for strategic decisions.

The work done to date will ensure that the Strategy is suited to the needs of the City of Kelowna moving forward, and is structured in a way that invites new approaches, new partnerships, and shared accountability. Leading up to this point, many accomplishments have been achieved: signing of the Statement of Cooperation (as noted above), establishment of the Steering Committee composition (IH and City Staff), international research and best practices review, consultation with key stakeholders involved in the Vancouver Healthy City Strategy process, a BC Healthy Communities Plan H workshop, and successful application for UBCM grant funding for the Community for All Ages theme area.

The theme areas for the Healthy City Strategy were co-developed on April 8, 2015 in which twenty-five City and Interior Health Staff participated in a BC Healthy Communities Plan H Workshop. One of the components of this workshop was collaborating on the Healthy City Strategy theme areas through discussion on the Healthy Built Environment Linkages Toolkit developed by the Provincial Health Services Authority (2014). This toolkit is an evidence-based and expert-informed resource that links planning principles to health outcomes. Therefore, to acknowledge the alignment between the City of Kelowna and Interior Health, the theme areas chosen for the Healthy City Strategy replicate those established in the Healthy Built Environment Linkages Toolkit, as well as a cross-cutting theme “Community for All Ages”.

The theme areas are as follows:

1. Healthy Transportation Networks
2. Healthy Housing
3. Healthy Neighbourhood Design
4. Healthy Food Systems
5. Healthy Natural Environments
6. Community for All Ages

For each of the 6 key theme areas, the City will develop a chapter that provides comprehensive discussion of the issue (including a baseline of data, current status and existing challenges), present health and well-being evidence, identify policy, planning and programming directions, as well as the public engagement completed for each theme. Goals, targets, indicators, and measurable actions will be created for each theme area.

The Healthy City Strategy will be led by the City of Kelowna, and co-supported by Interior Health. Additional stakeholders from the community will also be involved in the planning and actions to develop the Healthy City Strategy as required. In order to link community design, planning, and health, public health and community planners must work together in the design of communities as they share a responsibility to shape healthier built environments. The City aspires for actions that have a greater and longer-term impact through building the capacity of stakeholders and demonstrating the need for multi-sectoral collaboration.

It is well accepted that problems can't be addressed at the same level of thinking that created them, and 'leading' cities are thinking outside the box, stretching their usual processes and experimenting with new approaches, new tools, and new partnerships. In the process of working with multiple partners to build out the metrics in each of the six key theme areas, the intention is to catalyze the kind of innovation that will be needed to make a significant impact. Innovation will be required to transform existing systems, and the Healthy City Strategy will set measurable targets for a healthy built environment, foster measured risk-taking to reach those targets, and establish a process of tracking and reporting in order to learn and adapt where necessary.

City staff met with Interior Health in November to review the Healthy City Strategy Framework and discuss shared accountability, governance, data sharing opportunities and the creation of a Technical Steering Committee. On December 8, 2015, Interior Health and City staff presented the Healthy City Partnership and Healthy City Strategy to Interior Health's Board.

In 2016, that the following items will be the focus of work:

1. Healthy City Strategy Steering Committee

- Composition of City and Interior Health staff finalized
- Collaboration Agreement signed between the City and Interior Health
- Endorsement of a Terms of Reference to guide the roles and responsibilities of the Steering Committee
- Completion of the Draft Healthy City Strategy Framework
- Development of a HealthProof Tool<sup>2</sup> for Kelowna
- Determining sharable data that will inform the tracking and reporting deliverables to be shared by each organization
- Development of criteria for indicators, goals and targets for the Healthy City Strategy Plan document
- Exploring partnership opportunities for future theme area development

To guide future years of work and ensure that strategic and high-level objectives are being delivered on through each theme area that is developed in subsequent years, the Healthy City Strategy Steering Committee will consist of the following City staff:

- Doug Gilchrist, Community Planning & Real Estate Divisional Director - co-chair
- Jim Gabriel, Active Living & Culture Divisional Director
- Danielle Noble-Brandt, Policy & Planning Department Manager
- Michelle Kam, Policy & Planning Sustainability Coordinator
- Rafael Villarreal, Regional Planning Manager
- Brian Beach, Infrastructure Delivery Department Manager

---

<sup>2</sup> The HealthProof Tool is a modeling tool that will evaluate the impact of different forms of the built environment on health outcomes. Policy and Planning is working with a consultant to customize the HealthProof Tool for Kelowna in 2016.

The Steering Committee will also consist of 5 Interior Health staff including a Medical Health Officer (co-chair), Health Services Administrator, Epidemiologist, Environmental Health Officer and Community Health Facilitator.

2. Community for All Ages Theme Area - Project delivery of Phase 1

- Background research on age friendly strategies and plans
- Completion of an Age friendly community assessment
- Creation of a Community for All Ages Steering Committee
- Implementation of public/community engagement
- Creation of policy recommendations
- Development of a Community for All Ages Plan

The UBCM grant has been approved for \$20,000 towards the Community for All Ages project. The Community for All Ages Plan will provide future policy direction as well as action recommendations for improving the built environment including infrastructure improvements. This community assessment will consider the following components: outdoor spaces and buildings, transportation, housing needs, social participation, communication and information, and community support. The plan will identify partnership linkages to the community that may help to deliver on the long-term goals and targets of Kelowna being a Community for All Ages. The funding timelines require that the Community for All Ages Plan be completed by the end of 2016.

3. Evaluate, adjust and report back

- The Steering Committee will evaluate the 2016 work and Policy and Planning will report back to City Council at the end of 2016.

Ultimately, upon the completion of the Healthy City Strategy, it will be a document to; integrate key City strategies, focus strategic efforts, support evidence based decisions, report on metrics, and enable external partnerships and innovation required to address the complex challenges that we need to tackle as a community.

Once completed, the Healthy City Strategy will position Kelowna as a leader in integrated planning for healthy people and healthy places, as it strives to be best mid-sized City in North America.

**Internal Circulation:**

Divisional Director, Community Planning & Real Estate  
Divisional Director, Active Living & Culture  
Infrastructure Planning Department Manager  
Regional Planning Manager  
Infrastructure Delivery Department Manager  
Community Engagement Consultant

**Existing Policy:**

Healthy Community Council Policy 190:

"The City of Kelowna endorses the principles and objectives of a Healthy Community, and acknowledges essential relationships between community health and community quality of life.

The City of Kelowna resolves that:

- a) future policies of the City of Kelowna will provide a municipal framework which will assist in enhancing the overall health and vitality of the community;
- b) Kelowna civic departments individually and collectively will review policies and operations toward improving health conditions within the community;
- c) the City of Kelowna will ensure full community participation in matters relating to the overall health of the community and its citizens."

**Financial/Budgetary Considerations:**

\$20,000 grant from UBCM was approved for the Community for All Ages project. The City will contribute \$5,000 in funding and \$20,000 in-kind towards the deliverables of this project.

In February, Policy and Planning will also be applying for a \$15,000 grant from BC Healthy Communities' *PlanH Growing Impact: BC's Next Level of Healthy Communities Leadership* funding opportunity. If successful, this funding will be used towards the work tasks of the Steering Committee.

# HEALTHY CITY STRATEGY

## PRESENTATION OUTLINE

- ▶ Kelowna's strengths and challenges
- ▶ Interior Health's mandate & data
- ▶ Healthy City Partnership
- ▶ Healthy City Strategy
- ▶ Links to other community & corporate strategies
- ▶ Next steps: 2016 activities

# KELOWNA'S STRENGTHS & CHALLENGES

## Strengths:

- ▶ Spectacular natural setting
- ▶ 4 seasons playground
- ▶ Diverse economy
- ▶ Robust tourism
- ▶ Strong community passion
- ▶ Culture of innovation

## Challenges:

- ▶ Aging population
- ▶ Rise in chronic diseases and obesity
- ▶ Declining physical activity
- ▶ High auto dependency
- ▶ Housing affordability

# WHY URBAN HEALTH MATTERS

- ▶ *“We are at a clear turning point at which we are moving towards an increasingly urbanized world. We need to appreciate the positive and negative impact on health due to urbanization and take appropriate actions to address them. There is a pressing need for action now to ensure that growing cities are healthy cities.”*

# HOW CITIES SHAPE US

► Health is not just about physical and mental health; its about urban health and the building blocks that the City plays a critical role in.

# MUNICIPAL HEALTH PLANS BEST PRACTICES OVERVIEW

## COUNCIL POLICY 190 HEALTHY COMMUNITY

*The City of Kelowna endorses the principles and objectives of a Healthy Community, and acknowledges essential relationships between community health and community quality of life.*

## COUNCIL PRIORITIES

# Open for opportunity

Council priorities 2014-2018

September 2015

Planning a great City

# together.

1

## City building.

We plan Kelowna by taking a leading role in city building.

2

## Balancing interest.

We plan Kelowna by creating policy that balances a city-wide vision with neighborhood interests.

3

## Learning.

We plan Kelowna by facilitating a culture of continuous learning.

4

## Innovation.

We plan Kelowna by embracing innovation.

5

## Participation.

We plan Kelowna by continually working to broaden participation in city building.

6

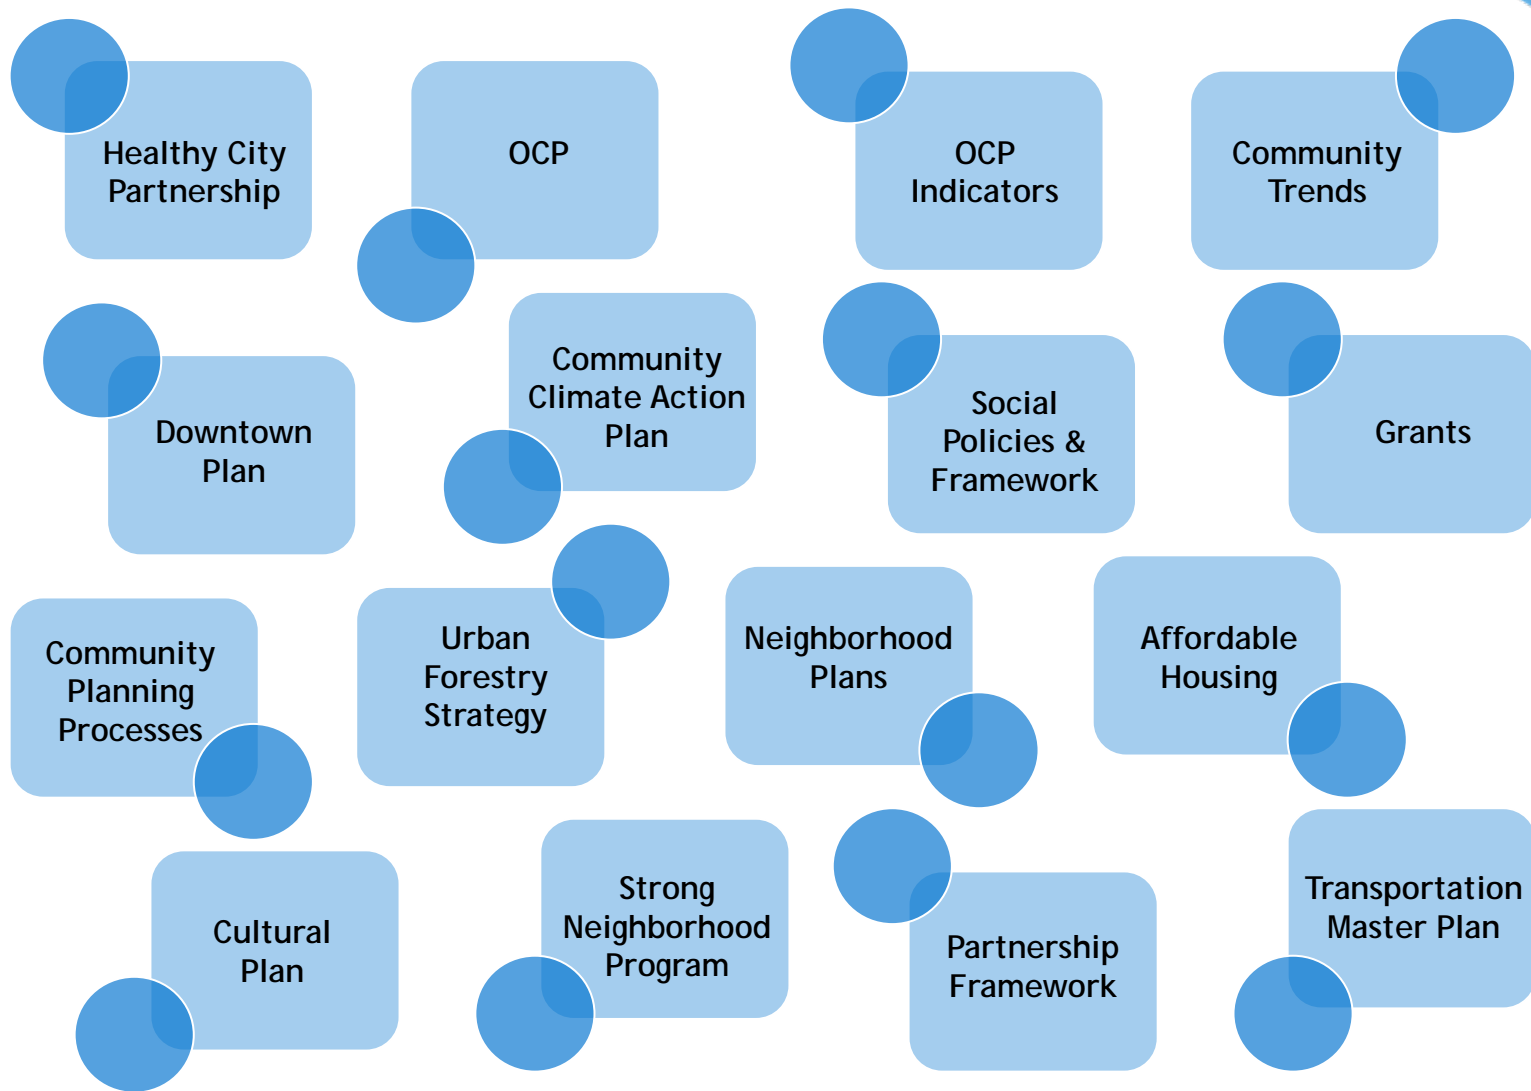

## Partnerships.

We plan Kelowna by pursuing partnerships with other Divisions, City Council and the public.

# HEALTHY CITY PARTNERSHIP

# CITY PLANS & PROGRAMS

# COMPREHENSIVE APPROACH - INTEGRATION & ALIGNMENT FOR GREATER IMPACT

# HEALTHY CITY STRATEGY

- ▶ The Healthy City Strategy will be a long-term, integrative plan that will focus on healthy built environment, community health and quality of life for all Kelowna residents.
- ▶ Draft Vision:
  - ▶ *Working together to create built environments in which people and places thrive.*

# PRE-CONDITIONS FOR SUCCESS

World Health Organization's (2010) four preconditions for a successful long-term plan:

- ▶ 1. political commitment at the highest level
- ▶ 2. shared vision, understanding and commitment
- ▶ 3. organizational structures and processes
- ▶ 4. opportunities for partnership-building and networking

# HEALTHY CITY STRATEGY

## ▶ Guiding Principles:

1. Prioritize the built environment
2. Integrate health in policies
3. Maximize partnerships for impact
4. Engage broadly for a healthy city
5. Lead and catalyze innovation
6. Embrace complexity

# BENEFITS AND OUTCOMES

## For residents:

- ▶ Healthier residents
- ▶ An engaged & connected City
- ▶ Livable built environments

## For the City and partners:

- ▶ Become a community leader
- ▶ Identify priorities
- ▶ Align resources
- ▶ Integrate goals & actions
- ▶ Enhance partnerships & innovative approaches
- ▶ Establish targets & indicators for evidence-based decisions

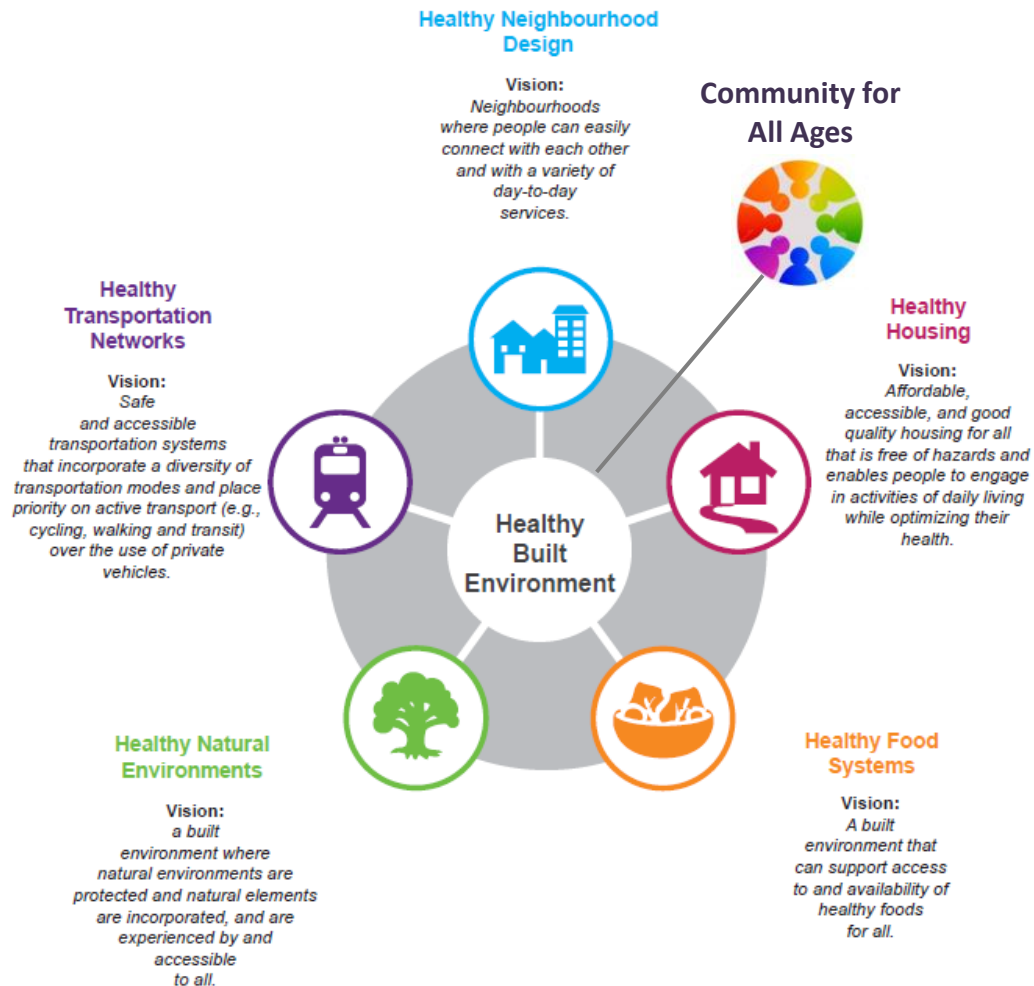

# HEALTHY CITY STRATEGY

- The 2040 OCP will be more focused on land-based components of planning
- The *Healthy City Strategy* will be a companion document

# HEALTHY BUILT ENVIRONMENT

## PLANNED DELIVERABLES

- ▶ Each of the 6 theme areas will have:
  - ▶ Goals
  - ▶ Indicators
  - ▶ Targets

## CRITERIA FOR INDICATOR DEVELOPMENT

- ▶ *Aspirational*
- ▶ *Meaningful*
- ▶ *Innovative*
- ▶ *Transformative*
- ▶ *Evidence-based*
- ▶ *Measurable*
- ▶ *Fiscally Feasible*

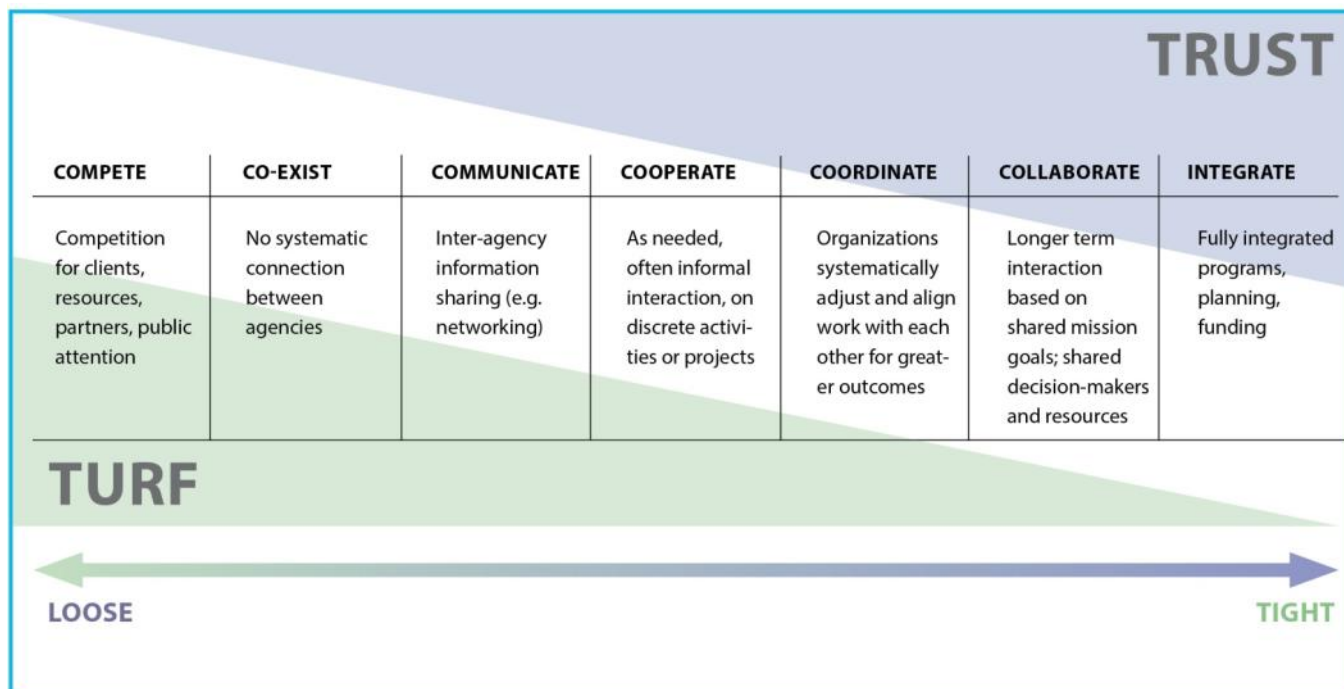

# HEALTHY CITY STRATEGY CITY AND IH STAFF TEAMS

# RELATIONSHIP TO THE CITY AS A WHOLE

1. Agree on what matters most
2. Share knowledge and power
3. Joint project delivery

## MAJOR MILESTONES

## 2016 NEXT STEPS

- ▶ Formulize Steering Committee
- ▶ Build out Strategy Framework
- ▶ Health Proof Model
- ▶ Determine sharable data
- ▶ Develop criteria for indicators, goals and targets
- ▶ Partnership Expansion
- ▶ Project Delivery - Community for all Ages
- ▶ Evaluate, Adjust, Report Back

## COMMUNITY FOR ALL AGES

- ▶ UBCM Grant for \$20,000 approved!
- ▶ Percentage of seniors will increase from 19.9% in 2014 to 25.5% in 2030
- ▶ Opportunity to build resiliency, foster generational inclusiveness and promote a higher quality of life for all ages and abilities.

## COMMUNITY FOR ALL AGES DELIVERABLES

- ▶ Background research;
- ▶ Age friendly community assessment;
- ▶ Community for All Ages Steering Committee;
- ▶ Direct engagement;
- ▶ Policy recommendations; and
- ▶ Community for All Ages Plan.

# COMMUNITY FOR ALL AGES

## INITIAL IDENTIFIED STAKEHOLDER LIST

- ▶ Interior Health
- ▶ UBC
- ▶ School District #23
- ▶ Community Action Towards Children's Health
- ▶ Pathways Abilities Society
- ▶ Central Okanagan Division of Family Practice

# MOVING THE HEALTHY CITY STRATEGY FORWARD

## Draft Vision:

*Working together to create built environments  
in which people and places thrive.*

## Staff's Role

- ▶ Ensuring the Strategy aligns with other visions and priorities
- ▶ Building community partnerships
- ▶ Establishing strategic public engagement
- ▶ Creating and developing the Healthy City Strategy and Implementation Plan

## Council's role

- ▶ Championing each theme area moving forward
- ▶ Positioning the City to form long-term community partnerships
- ▶ Building on the community passions and sense of belonging
