
CITY OF KELOWNA
MEMORANDUM

Date: April 11, 2018
File No.: Z18-0035
To: Community Planning (AF)
From: Development Engineering Manager (JK)
Subject: 4624 Raymer Road

RU1 to RU2

Development Engineering has the following comments and requirements associated with this application.

1. General

Road frontage improvements are triggered by this rezoning application. The requirements include curb and gutter, storm drainage system and pavement widening. Also required is a landscaped boulevard, street lighting and the re-location or adjustment of utility appurtenances if required to accommodate the upgrading construction. The cost of this construction is at the applicant's expense.

The proposed redevelopment includes the subject parcel being subdivided into two lots. A subdivision application will require service upgrades that include the installation of additional services. The work will require road cuts and boulevard and pavement restoration. Development Engineering is prepared to defer the requirements of the rezoning to the subdivision stage.

James Kay, P. Eng.
Development Engineering Manager

JA

Conceptual subdivision pattern (to be applied for at a later date).
