AND THAT final adoption of the Rezoning Bylaw be considered subsequent to the outstanding conditions of approval as set out in Attachment "A" attached to the Report from the Community Planning Department dated September 26th, 2018;

2.0 Purpose

To rezone the subject properties from RU6 – Two Dwelling Housing zone to the RM5 – Medium Density Multiple Housing zone to facilitate an Apartment Housing development.

3.0 Community Planning

Staff are supportive of the rezoning application. All properties along Gore Street are designated for MRM – Medium Density Multiple Housing within the Official Community Plan (OCP) which supports apartment housing. The proposed RM5 zone and proposed apartment housing project meets the objectives and land use policies outlined in the OCP. One of the conditions of the proposal is completion of the engineering requirements (details attached to this report) but the summary of action items include: provide 0.8m lane dedication, lot consolidation, and frontage improvements.

Currently, a Development Permit and Development Variance Permit application has been submitted with the rezoning application for a four storey, 19 dwelling unit apartment building. There is one variance Staff are currently tracking to reduce the southern side yard setback (from 4.5m to 1.5m). Should the rezoning be adopted, Staff will provide a detailed Council report on the merits of the variance as well as on compliance to the form and character design guidelines for apartment housing.
