Re: Rezoning of 1720 Highland Drive North, Kelowna - Letter of Support

Dear Mayor and Council,

It is understood that the land owner is seeking to rezone the property to allow construction of a second dwelling.

The current home is set back from the road and there appears to be enough space to locate a new dwelling in the front portion of the yard.

Please accept this letter of support for the project.

With regards,

Debbie Rona

RE: Opposition to Rezoning of 1720 Highland Drive North V1Y 4K8 From RU1 to RU6

To Whom It May Concern,

I am formally writing this letter in opposition to the rezoning from RU1c to RU6 of 1720 Highland Dr. North in Kelowna BC. Currently this property and all other surrounding properties are zoned RU1c. This designation allows for safe and effective infill housing by utilizing secondary suites and carriage homes. It may be noted that 1720 Highland Drive North has ample room and space to construct a carriage home or secondary suite on the back premises of their property with its existing RU1c zoning. This would be more consistent with the City of Kelowna's current bylaws and zoning. May it also be noted that the current property owners took down many large cedar trees making the property look unattractive intentionally. I only state this because in the applicant's proposal it states that the rocks and emptiness are a reason for the applications design. A 26' foot high 1600 square foot plus garage secondary home is not consistent with the neighborhoods character and current zoning of RU1c. This project is highly undesirable with the neighborhood street scape and certainly will not fit in. I ask that city staff not support this zoning amendment as it simply not what our neighborhood needs.

Sincerely,

Colleen Crowe
