AND THAT variances to the following section[s] of Zoning Bylaw No. 8000 be granted:

AND FURTHER THAT this Development Variance Permit is valid for two (2) years from the date of Council approval, with no opportunity to extend.

## 2.0 Purpose

To consider the Development Variance Permit application to reduce the east side yard set-back from 2.0m to 1.8m and the west side yard set-back from 2.0m to 1.3m in order to build an addition to the existing single detached house.

### 3.0 Community Planning

Community Planning supports the proposed Development Permit and associated variances as it is in general accordance with the Official Community Plan (OCP) Comprehensive Design Guidelines, and the variances will have minimal impact on any adjacent neighbours. The variances would allow for an addition to the existing house that would match the existing width of the house.

### 4.0 Proposal

#### 4.1 Background

The subject property is a single family lot zoned RU6 – Two Dwelling Housing. The subject property fronts Roanoke Ave. There is a garage located in the north-east corner of the property which connects to the back lane. The existing house is 1.8m from the East property line and 1.3m from the West property line.

#### 4.2 Project Description

The property owner has applied for a DVP in order to build an addition that is the same width of the existing house. The proposal requires variances to reduce the east side yard set-back from 2.0m to 1.8m and the west side yard set-back from 2.0m to 1.3m in order to build the addition. The proposed addition meets all other zoning regulations.

##### Development Process

**Compact Urban Form.**<sup>1</sup> Develop a compact urban form that maximizes the use of existing infrastructure and contributes to energy efficient settlement patterns. This will be done by increasing densities (approximately 75 - 100 people and/or jobs located within a 400 metre walking distance of transit stops is required to support the level of transit service) through development, conversion, and re-development within Urban Centres (see Map 5.3) in particular and existing areas as per the provisions of the Generalized Future Land Use Map 4.1.
