RE: Proposed Rezoning and Heritage Alteration Permit at 338 Cadder Avenue

Dear Urban Planner:

We are applying to rezone the subject property from the existing "RU1 - Large Lot Housing" zone to the "RU1c - Large Lot Housing with Carriage House" zone in order to permit the construction of new single-family dwelling and carriage house. The dwelling that is currently located on the property is to be moved off the site and relocated within the City.

The subject property is located within the Abbott Street Heritage Conservation area and thus also requires an application for a Heritage Alteration Permit to authorize construction of the new dwelling and carriage house. The existing dwelling is not listed on the Heritage Register but is identified as within the "Early Vernacular Cottage" dominant style in the "Abbott Street & Marshall Street Heritage Conservation Area Development Guidelines".

The dwelling has been designed with elements reminiscent of the "Vernacular Cottage (late)" style in order to complement the heritage design elements of other dwellings located in the neighbourhood. The proposed home creates a transition from modern to the west and the basic 1950's bungalow to the east. The building meets the following character defining qualities:

- Less fanciful feel to the architecture
- Flush gable verges
- Stucco or horizontal siding
- Up to 2 storey massing
- Clustered vertical window sashes
- Asymmetrical facade design
- Gable roof forms
- Side or rear yard parking

The new dwelling adjacent to the Cadder Avenue frontage is 2½ storeys in height incorporating a front veranda. Plenty of outdoor spaces are provided including a deck area within the attic roof structure oriented towards the rear yard, other small balconies located off bedrooms and the abundant gardens at the front and rear of the site. Although the

existing rear garden will be lost during the construction the landowner is planning on recreating it.

The carriage house will be located behind the new dwelling, adjacent to the lane. Three vehicle parking stalls are allocated within the lower floor of the building providing parking for both the principal dwelling and the residential portion of the carriage house. The proposed carriage house will incorporate design elements of the new principal dwelling, including the use of complementary building materials and colours for both buildings. The entrance to the carriage house is on the east side of the building, close to the private open space area.

The downtown area was developed with single unit dwellings on large lots dating back to the early 1900's, a time associated with the early incorporation of the City of Kelowna. The neighbourhood has seen a resurgence of development in the last 20 years. There are properties located to the north and east of the subject property that have the "c" designation. Further, the location of the subject property will provide walking access to many employment and commercial uses in the nearby downtown business district as well as to several beach accesses on Okanagan Lake.

We believe this proposal is a good fit within the fabric of the neighbourhood and will contribute to positive infill density in this area of Kelowna.

Regards

Birte Decloux on behalf of the owners
