#### **CITY OF KELOWNA**

#### **MEMORANDUM**

**Date:** March 23, 2020

**File No.:** DP20-0094

**To:** Community Planning (AC)

From: Development Engineer Manager (JK)

**Subject:** 276 Valley Rd Form & Character

The Development Engineering comments and requirements regarding this Development Permit application for Council Form and Character Development Permit for multiple unit residentialare as follows:

#### 1. General.

a) All the offsite infrastructure and services upgrades are addressed in the Subdivision Engineering Report under file Z17-0099,

James Kav. P.Eng.

**Development Engineering Manager** 

RO

#### **CITY OF KELOWNA**

#### **MEMORANDUM**

**Date:** October 27, 2020

**File No.:** DVP20-0193

**To:** Suburban and Rural Planning (KB)

From: Development Engineer Manager (SM)

Subject: 276 Valley Road Lot A Plan EEP80045

The A Development Variance Permit application to vary the required minimum landscape buffers on the north, east and west property lines to accommodate required parking stalls within the required buffer area, and a variance to the maximum height, for the portions of the buildings within 7.5 m of the north property line only (9.5m/2.5 storeys required, 9.8m/3 storeys proposed)

a) This Development Variance Permit does not compromise any Municipal Infrastructure.

James Kay, P.Eng.

Development Engineering Manager

RO

#### **DEVELOPMENT PERMIT GUIDELINES**

#### Comprehensive Development Permit Area

Consideration has been given to the following guidelines as identified in Section 14.A. of the City of Kelowna Official Community Plan relating to Comprehensive Development Permit Areas:

Do landscaping and building form convey a character that is distinct to Kelowna and the Central Okanagan?  Are materials in keeping with the character of the region?  Are colours used common in the region's natural landscape?  Does the design provide for a transition between the indoors and outdoors?  Context  Does the proposal maintain the established or envisioned architectural character of the neighbourhood?  Does interim development consider neighbouring properties designated for more intensive development?  Are façade treatments facing residential areas attractive and context sensitive?  Are architectural elements aligned from one building to the next?  For exterior changes, is the original character of the building respected and enhanced?  Is the design unique without visually dominating neighbouring buildings?  For developments with multiple buildings, is there a sense of architectural unity and cohesiveness?  Relationship to the Street  Do buildings create the desired streetscape rhythm?  Are parkade entrances located at grade?  For buildings with multiple street frontages, is equal emphasis given to each frontage?  Massing and Height  Does the design mitigate the actual and perceived mass of buildings?  Does the height consider shading and view impacts for neighbouring properties and transition to less intensive areas?  Human Scale  Are architectural elements scaled for pedestrians?	COMPREHENSIVE DEVELOPMENT PERMIT AREA	YES	NO	N/A

Human Scale  Are architectural elements scaled for pedestrians?	For buildings with multiple street frontages, is equal emphasis given to each frontage?	<b>~</b>		
Does the height consider shading and view impacts for neighbouring properties and transition to less intensive areas?  Human Scale  Are architectural elements scaled for pedestrians?	Massing and Height			
Are architectural elements scaled for pedestrians?	Does the design mitigate the actual and perceived mass of buildings?	<b>~</b>		
Are architectural elements scaled for pedestrians?	Does the height consider shading and view impacts for neighbouring properties and transition to less intensive areas?	<b>✓</b>		
	Human Scale			
Are façades articulated with indentations and projections?	Are architectural elements scaled for pedestrians?	<b>✓</b>		
	Are façades articulated with indentations and projections?	<b>~</b>		

COMPREHENSIVE DEVELOPMENT PERMIT AREA	YES	NO	N/A
Are top, middle and bottom building elements distinguished?	<b>~</b>		
Do proposed buildings have an identifiable base, middle and top?			<b>~</b>
Are building facades designed with a balance of vertical and horizontal proportions?	<b>~</b>		
Are horizontal glazed areas divided into vertically proportioned windows separated by mullions or building structures?	<b>~</b>		
Does the design incorporate roof overhangs and the use of awnings, louvers, canopies and other window screening techniques?	<b>~</b>		
Is the visual impact of enclosed elevator shafts reduced through architectural treatments?			<b>✓</b>
Exterior Elevations and Materials			
Are buildings finished with materials that are natural, local, durable and appropriate to the character of the development?	<b>~</b>		
Are entrances visually prominent, accessible and recognizable?	<b>~</b>		
Are higher quality materials continued around building corners or edges that are visible to the public?	<b>✓</b>		
Are a variety of materials used to create contrast, enhance the pedestrian environment and reduce the apparent mass of a building?	<b>~</b>		
Are elements other than colour used as the dominant feature of a building?	<b>~</b>		
Public and Private Open Space			
Does public open space promote interaction and movement through the site?	<b>~</b>		
Are public and private open spaces oriented to take advantage of and protect from the elements?	<b>~</b>		
Is there an appropriate transition between public and private open spaces?			<b>~</b>
Are amenities such as benches, garbage receptacles, bicycle stands and community notice boards included on site?  Site Access	<b>~</b>		
Is the safe and convenient movement of pedestrians prioritized?	<b>~</b>		
Are alternative and active modes of transportation supported through the site design?	<b>~</b>		
Are identifiable and well-lit pathways provided to front entrances?	<b>~</b>		
Do paved surfaces provide visual interest?	<b>~</b>		
Is parking located behind or inside buildings, or below grade?	<b>~</b>		
			<b>/</b>
Are large expanses of parking separated by landscaping or buildings?			,

COMPREHENSIVE DEVELOPMENT PERMIT AREA	YES	NO	N/A
Do vehicle and service accesses have minimal impact on the streetscape and public views?			<b>~</b>
Is visible and secure bicycle parking provided in new parking structures and parking lots?			<b>~</b>
Environmental Design and Green Building			
Does the proposal consider solar gain and exposure?		<b>~</b>	
Are green walls or shade trees incorporated in the design?		<b>✓</b>	
Does the site layout minimize stormwater runoff?	<b>~</b>		
Are sustainable construction methods and materials used in the project?	<b>~</b>		
Are green building strategies incorporated into the design?		<b>✓</b>	
Decks, Balconies, Rooftops and Common Outdoor Amenity Space			
Are decks, balconies or common outdoor amenity spaces provided?	<b>~</b>		
Does hard and soft landscaping enhance the usability of decks, balconies and outdoor amenity spaces?	<b>~</b>		
Are large flat expanses of roof enhanced with texture, colour or landscaping where they are visible from above or adjacent properties?	<b>~</b>		
Amenities, Ancillary Services and Utilities			
Are loading, garage, storage, utility and other ancillary services located away from public view?			<b>~</b>
Are vents, mechanical rooms / equipment and elevator penthouses integrated with the roof or screened with finishes compatible with the building's design?			<b>✓</b>
Landscape Development and Irrigation Water Conservation			
Does landscaping:	-	-	-
<ul> <li>Compliment and soften the building's architectural features and mitigate undesirable elements?</li> </ul>	<b>~</b>		
Maintain the dominant pattern of landscaping along the street and surrounding properties?	<b>~</b>		
Enhance the pedestrian environment and the sense of personal safety?	<b>~</b>		
<ul> <li>Screen parking areas, mechanical functions, and garbage and recycling areas?</li> </ul>	<b>✓</b>		
Respect required sightlines from roadways and enhance public views?	<b>~</b>		
<ul> <li>Retain existing healthy mature trees and vegetation?</li> </ul>		<b>✓</b>	
Use native plants that are drought tolerant?	<b>~</b>		
Define distinct private outdoor space for all ground-level dwellings?	<b>~</b>		
Do any fences and retaining walls create visual interest and enhance the pedestrian environment?	<b>~</b>		

COMPREHENSIVE DEVELOPMENT PERMIT AREA	YES	NO	N/A
Do parking lots have one shade tree per four parking stalls?			<b>/</b>
Does the Landscape Architect's Landscape Water Conservation Report:	-	-	-
<ul> <li>Meet the requirements for Landscape Water Budget calculations for the landscaped area?</li> </ul>	<b>~</b>		
<ul> <li>Indicate how the development complies with or varies from the Landscape Water Conservation Guidelines?</li> </ul>	<b>~</b>		
Landscape Water Conservation Guidelines			
Are plants grouped into "hydro-zones" of high, medium and low or unirrigated / unwatered areas?	<b>~</b>		
Does at least 25% of the total landscaped area require no irrigation / watering?		<b>~</b>	
Does at least 25% of the total landscaped area require low water use?		<b>~</b>	
Does at most 50% of the total landscaped area require medium or high water use?		<b>✓</b>	
Is mulch cover provided for shrubs and groundcover to reduce soil evaporation?	<b>~</b>		
Do water features such as pools and fountains use recirculated water systems?			<b>~</b>
Do landscape installation standards meet the requirements of the BC Landscape Standard and / or the Master Municipal Construction Document?			<b>~</b>
Are the required written declarations signed by a qualified Landscape Architect?		<b>~</b>	
Irrigation System Guidelines			
Is the Irrigation Plan prepared by a Qualified Professional?	<b>~</b>		
Are irrigation circuits grouped into "hydro-zones" of high, medium and low or unirrigated / unwatered areas consistent with the landscaping plan?	<b>✓</b>		
Is drip or low volume irrigation used?	<b>~</b>		
Are the required written declarations signed by a qualified Certified Irrigation Designer?	<b>✓</b>		
Crime prevention			
Are CPTED practices as related to landscaping, siting, form and exterior design included in the design?		<b>~</b>	
Are building materials vandalism resistant?		<b>~</b>	
Universal Accessible Design			
Is access for persons with disabilities integrated into the overall site plan and clearly visible from the principal entrance?	<b>✓</b>		
Are the site layout, services and amenities easy to understand and navigate?	<b>~</b>		
Lakeside Development		ī	
Are lakeside open spaces provided or enhanced?			<b>/</b>

COMPREHENSIVE DEVELOPMENT PERMIT AREA	YES	NO	N/A
Are lake views protected?			<b>~</b>
Does lakeside development act as a transition between the lake and inland development?			<b>~</b>
Signs			
Do signs contribute to the overall quality and character of the development?			<b>~</b>
Is signage design consistent with the appearance and scale of the building?			<b>~</b>
Are signs located and scaled to be easily read by pedestrians?			<b>~</b>
For culturally significant buildings, is the signage inspired by historical influences?			<b>~</b>
Lighting			•
Does lighting enhance public safety?	<b>~</b>		
Is "light trespass" onto adjacent residential areas minimized?	<b>~</b>		
Does lighting consider the effect on the façade, neighbouring buildings and open spaces?	<b>~</b>		
Is suitably scaled pedestrian lighting provided?	<b>~</b>		
Does exterior street lighting follow the International Dark Sky Model to limit light pollution?		<b>✓</b>

Design Rationale

November 8, 2020

A-1.3

#### Introduction

- 1. 'Glenpark Row' is a development proposal comprising 52 family-oriented townhouses in the Glenmore neighbourhood of Kelowna.
- 2. The development site is at 292, 284 and 276 Valley Road. It is a 2.4 acre, reasonably flat parcel that currently comprises 3 single-family lots.
- 3. It is located in an established community that is within close proximity to a retail village, a new sports complex and schools.
- 4. Given its recent success with the nearby 'Drysdale Row' townhouse development project, VanMar Developments (the builder) recognizes the opportunity to create a highly livable townhouse community that will contribute positively to the Glenmore community and to appeal to a broad range of people, and particularly families with children.
- 5. The development proposal is in response to Council's priority to see more family-orientated housing, particularly 3-bedroom ground-oriented townhouses that are walkable and close to schools, shops and services. Earlier this month, this was expressed in a housing needs assessment developed by the City of Kelowna. This recently published report identified a "missing middle" housing type to meet the increasing demand for walkable multi-unit and family-oriented communities that are scale-compatible with single family housing.

#### **Purpose of this document**

6. This 'Design Rationale' document has guided VanMar's approach to the design of this new community. The document seeks to first identify all the relevant considerations that the design needs to respond to. Having identified all of the relevant considerations, the document then details a design that appropriately responds to these considerations.

# Part I: Identification of the relevant considerations that the design needs to respond to...

#### THE SITE AND ITS LOCATIONAL CONTEXT

- 7. The site has an interesting locational context. It is within easy walking distance of everyday urban amenities (shops, schools, daycare and parks), while also being immediately adjacent to the farmland and orchards.
- 8. To the South of the development site is a working apple and pear orchard, and a heritage house that was built in the 1920's. The orchard grower sells produce from his house to the local community. Beyond this orchard is a vibrant and busy neighbourhood retail village, with an IGA, Save-on-Foods, Shoppers Drug Mart, Starbucks and other urban amenities. The retail village area is within easy walking distance of the development site.
- 9. To the West of the development site is an attractive neighbourhood of single-family homes accessed from Drysdale Boulevard.
- 10. To the East of the development site the City is developing the new 'Glenmore Recreation Park' sports facility, which is now under construction. Beyond this new sports facility, there are attractive views of orchards and hills.
- 11. To the North of the development site are 3 single-family homes. The owners of these homes have expressed interest in selling their property for development. These discussions are amicable and ongoing. To date, an agreement has not been reached between these owners and VanMar.
- 12. The site is within close proximity to high quality schools, including Dr Knox Middle School and North Glenmore Elementary School. Dr Knox is within easy walking distance of the site. The site is also within walking distance of the Green Gables Daycare.
- 13. The site is a 15-minute drive to downtown Kelowna and a 10 minute drive to UBCO.

#### ADVICE FROM THE CITY OF KELOWNA PLANNING DEPARTMENT

- 14. Given the locational context, and the alignment with City policy priorities, City planning staff are supportive towards the idea of recommending to Council that this site be developed for townhouses, subject to the following conditions and provisos:
- a. That the townhouses are designed to be appealing to families given Council's desire to see more family-oriented housing, particularly 3-bedroom ground-oriented townhouses. This is due to Kelowna currently going through a period of growth and there being a shortage of housing that is suitable and affordable for families with school-aged children.
- b. That the development integrates with the local context of growing family-oriented amenities (including the new Glenmore Recreation Park and the retail village), and is sensitive to the adjacent single-family homes to the West.
- c. That the design should be welcoming and inclusive of the surrounding community, and should activate the perimeter streets with outward (rather than inward) facing homes and strong corner elements on the ends of buildings.
- d. That the development includes construction of a new portion of Glenpark Drive that intersects with Valley Road (and in alignment with the access to Glenmore Recreation Park on the other side of Valley Road) and that, once constructed, this newly constructed portion of Glenpark Drive be dedicated to the City.
- e. That vehicle access to the project is provided from this new section of Glenpark Drive, and not from Valley Road or from Marigold Road.
- f. That the design and layout of a townhouse project on this site can be integrated with development of the single-family house lots to the North of the site (if they become available for development in the future).
- g. That the project make provision for a pedestrian walkway through the site, linking Drysdale Boulevard with Glenmore Recreation Park.
- 15. Planning staff have advised that the development approval process for the project will require a Development Permit, a Rezoning from RR-3 to RM-3 and an amendment to the OCP from 'Single Family' to 'Multi-Residential Low Density'. Planning staff have advised VanMar of the required steps and public consultation requirements that this process will require.

### Part II: Proposed design response to these considerations...

#### SUMMARY OF OUR PROPOSED DESIGN APPROACH

- 16. Our design responds to the above-listed contextual considerations through a thoughtfully designed development of 52 townhouses organized in 11 separate buildings with an overall FAR of 0.72.
- 17. The community is predominantly oriented towards families with children. All of the 52 townhouses have:
- a. 3 bedrooms
- b. A den, which can also be converted into a 4th bedroom.
- c. A garage with side-by-side parking for 2 cars (and we have also provided by-law compliant visitor parking around the site).
- d. A balcony directly accessed from the principal living space.
- e. A front yard garden area.
- f. Approximately 1,500 sf of living space.
- 18. The design is compliant with the RM-3 By-law and has no variances.
- 19. The community has been designed to be self-sufficient with regards to parking, and to not place any parking burden on the surrounding streets. Each townhouse has a garage with 2 side-by-side parking stalls. There are also 9 visitor parking stalls distributed around the community, as well as on-street parking on the new section of Glenpark Drive.

#### LAYOUT AND ORGANIZATION OF THE COMMUNITY

20. The organization and layout of the community is driven by the following four ideas:

#### a. Vehicle Access...

Vehicle access to the development will be from Glenpark Drive, with an emergency vehicle only exit on Marigold Road. Vehicle access to the community will only be from this new section of Glenpark Drive. There will be no vehicle access or egress to the community from Marigold Road, other than for Fire Truck emergency purposes.

### b. Outward-facing Design...

The townhouses located around the perimeter of the community have front doors directly facing Valley Road and Glenpark Drive. This approach activates these streets and presents a welcoming face to the surrounding neighbourhood. Importantly, on-street parking on Glenpark Drive improves the livability and functionality of these street-facing outward looking townhouse units.

#### c. Mews Courtyard...

The townhouses on the inside of the project are organized around a 'mews courtyard' concept where front doors face a green area that is free from vehicles. The first of these courtyards is organized so that it is the first thing a person sees when entering the community from Glen Park Drive. We believe these courtyards provide an appealing amenity for all residents and foster an improved interaction between neighbours. These attractive green spaces allow us to integrate small community gathering areas and provide the basis for a diagonal pedestrian pathway through the community to link Marigold Road with the new Glenmore Recreation Park.

### d. Future Integration Potential...

The overall layout of the townhouse community works well on the current project site but also has the potential to be integrated with the lots to the North of the site(if these lots become available for redevelopment in the future).

### ARCHITECTURAL EXPRESSION

- 21. The architectural design is inspired by the locational context, being part urban and part rural. The townhouses will reflect this regional influence with a contemporary architectural design.
- 22. The design approach seeks to create a strong expression of the individual townhouse. This is achieved through:
- a. A strong front entry condition that is defined by a highly visible front door, an attractive front yard, and clearly visible street address number.
- b. Each townhouse having its individual identity expressed architecturally in gable roof forms and bay window treatments.
- c. Using a mix of attractive and distinct, but complimentary, colours for the siding and windows on each of the townhouses. The natural landscape of the Okanagan informs the base colour palette of the design, with more dynamic colour accents used in certain areas to express the individuality of each home and to express a more contemporary and vibrant appearance, particularly around the front entry.

### MASSING AND THE OVERALL FEEL OF THE COMMUNITY

- 23. To ensure that the community feels livable and friendly, efforts have been made to reduce the overall perception of building mass through the following ideas:
- a. The community has been arranged so that most blocks of buildings have no more than 4 townhouses.
- b. The townhouses within each building block are 'articulated' through roof forms and a variety of window expressions throughout each block of buildings.
- c. The yard in front of each townhouse provides a delineation between the public and private realm but does so in a friendly and inclusive fashion and without the need for excessive barrier fences and gates.
- d. Attention is paid to roof form and bay window elements to create 'strong corners', particularly at the most visible building ends.
- c. Where possible trees and low level planting are introduced to compliment and enhance the streetscape and delineate the public and private outdoor areas.
- f. Each home has a balcony directly accessed from the principal living space. As well as providing important opportunities for indoor/outdoor living, the balcony provides an opportunity for informal neighbour-to-neighbour interaction across the driveway aisle and community overlook which improves security and safety in the parking/drive aisle area.
- g. The landscape design is well integrated with the architectural design, and is mindful of the hot and dry Okanagan climate. The landscape design incorporates canopy trees wherever possible to reduce heat gain
- h. The development will provide a pedestrian friendly boulevard treatment along Glenpark Drive, achieved through the installation of deciduous shade trees and a turf boulevard.

City of

City of

Kelowna

City of

Kelowna

This permit relates to land in the City of Kelowna municipally known as

#### 276 Valley Road

and legally known as

LOT A SECTION 33 TOWNSHIP 26 OSOYOOS DIVISION YALE DISTRICT PLAN EPP80045 EXCEPT PLAN EPP94225

and permits the land to be used for the following development:

#### **Multiple Dwelling Housing**

with variances to the following sections of Zoning Bylaw No. 8000 in accordance with Schedules A, B and C:

Section 7.6.1(b): Section 7 - Landscaping and Screening, Minimum Landscape Buffers

To vary the required minimum landscape buffer for the front yard from 3.0 m required to 0.51 m proposed.

Section 7.6.1(c): Section 7 - Landscaping and Screening, Minimum Landscape Buffers

To vary the required minimum landscape buffer for the side yard from 3.0 m required to 0.66 m proposed.

Section 7.6.1(c): Section 7 - Landscaping and Screening, Minimum Landscape Buffers

To vary the required minimum landscape buffer for the rear yard from 3.0 m required to 2.3 m proposed.

Section 8.2.3: Parking and Loading, Off-Street Parking Regulations

To vary the required minimum setback from any side or rear lot line from 1.5m required to 0.66 m proposed.

Section 13.9.6(c): RM3 - Low Density Multiple Housing Development Regulations

To vary the maximum height for any portion of a building within 7.5 m of an abutting lot with a Single/Two Unit designation in the City's Official Community Plan from 9.5 m or 2 ½ storeys permitted to 10.0 m or 3 storeys.

The present owner and any subsequent owner of the above described land must comply with any attached terms and conditions.

Date of Council Decision January 19, 2020

Decision By: COUNCIL

<u>Development Permit Area:</u> Comprehensive Development Permit Area

Existing Zone: RM<sub>3</sub> – Low Density Multiple Housing

Future Land Use Designation: MRL – Multiple Unit Residential (Low Density)

#### This is NOT a Building Permit.

In addition to your Development Permit, a Building Permit may be required prior to any work commencing. For further information, contact the City of Kelowna, Development Services Branch.

#### NOTICE

This permit does not relieve the owner or the owner's authorized agent from full compliance with the requirements of any federal, provincial or other municipal legislation, or the terms and conditions of any easement, covenant, building scheme or agreement affecting the building or land.

Owner:	Owner: Vanmar Developments Glenpark Ltd., Inc. No. BC1150883				
Applicant:	Vanmar Constructors Inc.				
Planner:	K. Brunet				
Terry Barton		Date			
•	Planning Department Manager evelopment Services				

#### 1. SCOPE OF APPROVAL

This Development Permit applies to and only to those lands within the Municipality as described above, and any and all buildings, structures and other development thereon.

This Development Permit is issued subject to compliance with all of the Bylaws of the Municipality applicable thereto, except as specifically varied or supplemented by this permit, noted in the Terms and Conditions below.

The issuance of a permit limits the permit holder to be in strict compliance with regulations of the Zoning Bylaw and all other Bylaws unless specific variances have been authorized by the Development Permit. No implied variances from bylaw provisions shall be granted by virtue of drawing notations that are inconsistent with bylaw provisions and that may not have been identified as required Variances by the applicant or Municipal staff.

#### 2. CONDITIONS OF APPROVAL

- a) The dimensions and siting of the building to be constructed on the land be in accordance with Schedule "A";
- b) The exterior design and finish of the building to be constructed on the land be in accordance with Schedule "B";
- c) Landscaping to be provided on the land be in accordance with Schedule "C"; and
- d) The applicant be required to post with the City a Landscape Performance Security deposit in the form of a "Letter of Credit" in the amount of 125% of the estimated value of the landscaping, as determined by a Registered Landscape Architect.

This Development Permit is valid for two (2) years from the date of approval, with no opportunity to extend.

#### 3. PERFORMANCE SECURITY

As a condition of the issuance of this Permit, Council is holding the security set out below to ensure that development is carried out in accordance with the terms and conditions of this Permit. Should any interest be earned upon the security, it shall accrue to the Developer and be paid to the Developer or his or her designate if the security is returned. The condition of the posting of the security is that should the Developer fail to carry out the development hereby authorized, according to the terms and conditions of this Permit within the time provided, the Municipality may enter into an agreement with the property owner of the day to have the work carried out, and any surplus shall be paid over to the property owner of the day. Should the Developer carry out the development permitted by this Permit within the time set out above, the security shall be returned to the Developer or his or her designate. There is filed accordingly:

a) An Irrevocable Letter of Credit OR certified cheque in the amount of \$220,764.38

Before any bond or security required under this Permit is reduced or released, the Developer will provide the City with a statutory declaration certifying that all labour, material, workers' compensation and other taxes and costs have been paid.

# ATTACHMENT D This forms part of application # DP20-0094 DVP20-0193 City of Planner Initials KB Kelowna DEVELOPMENT PLANNING

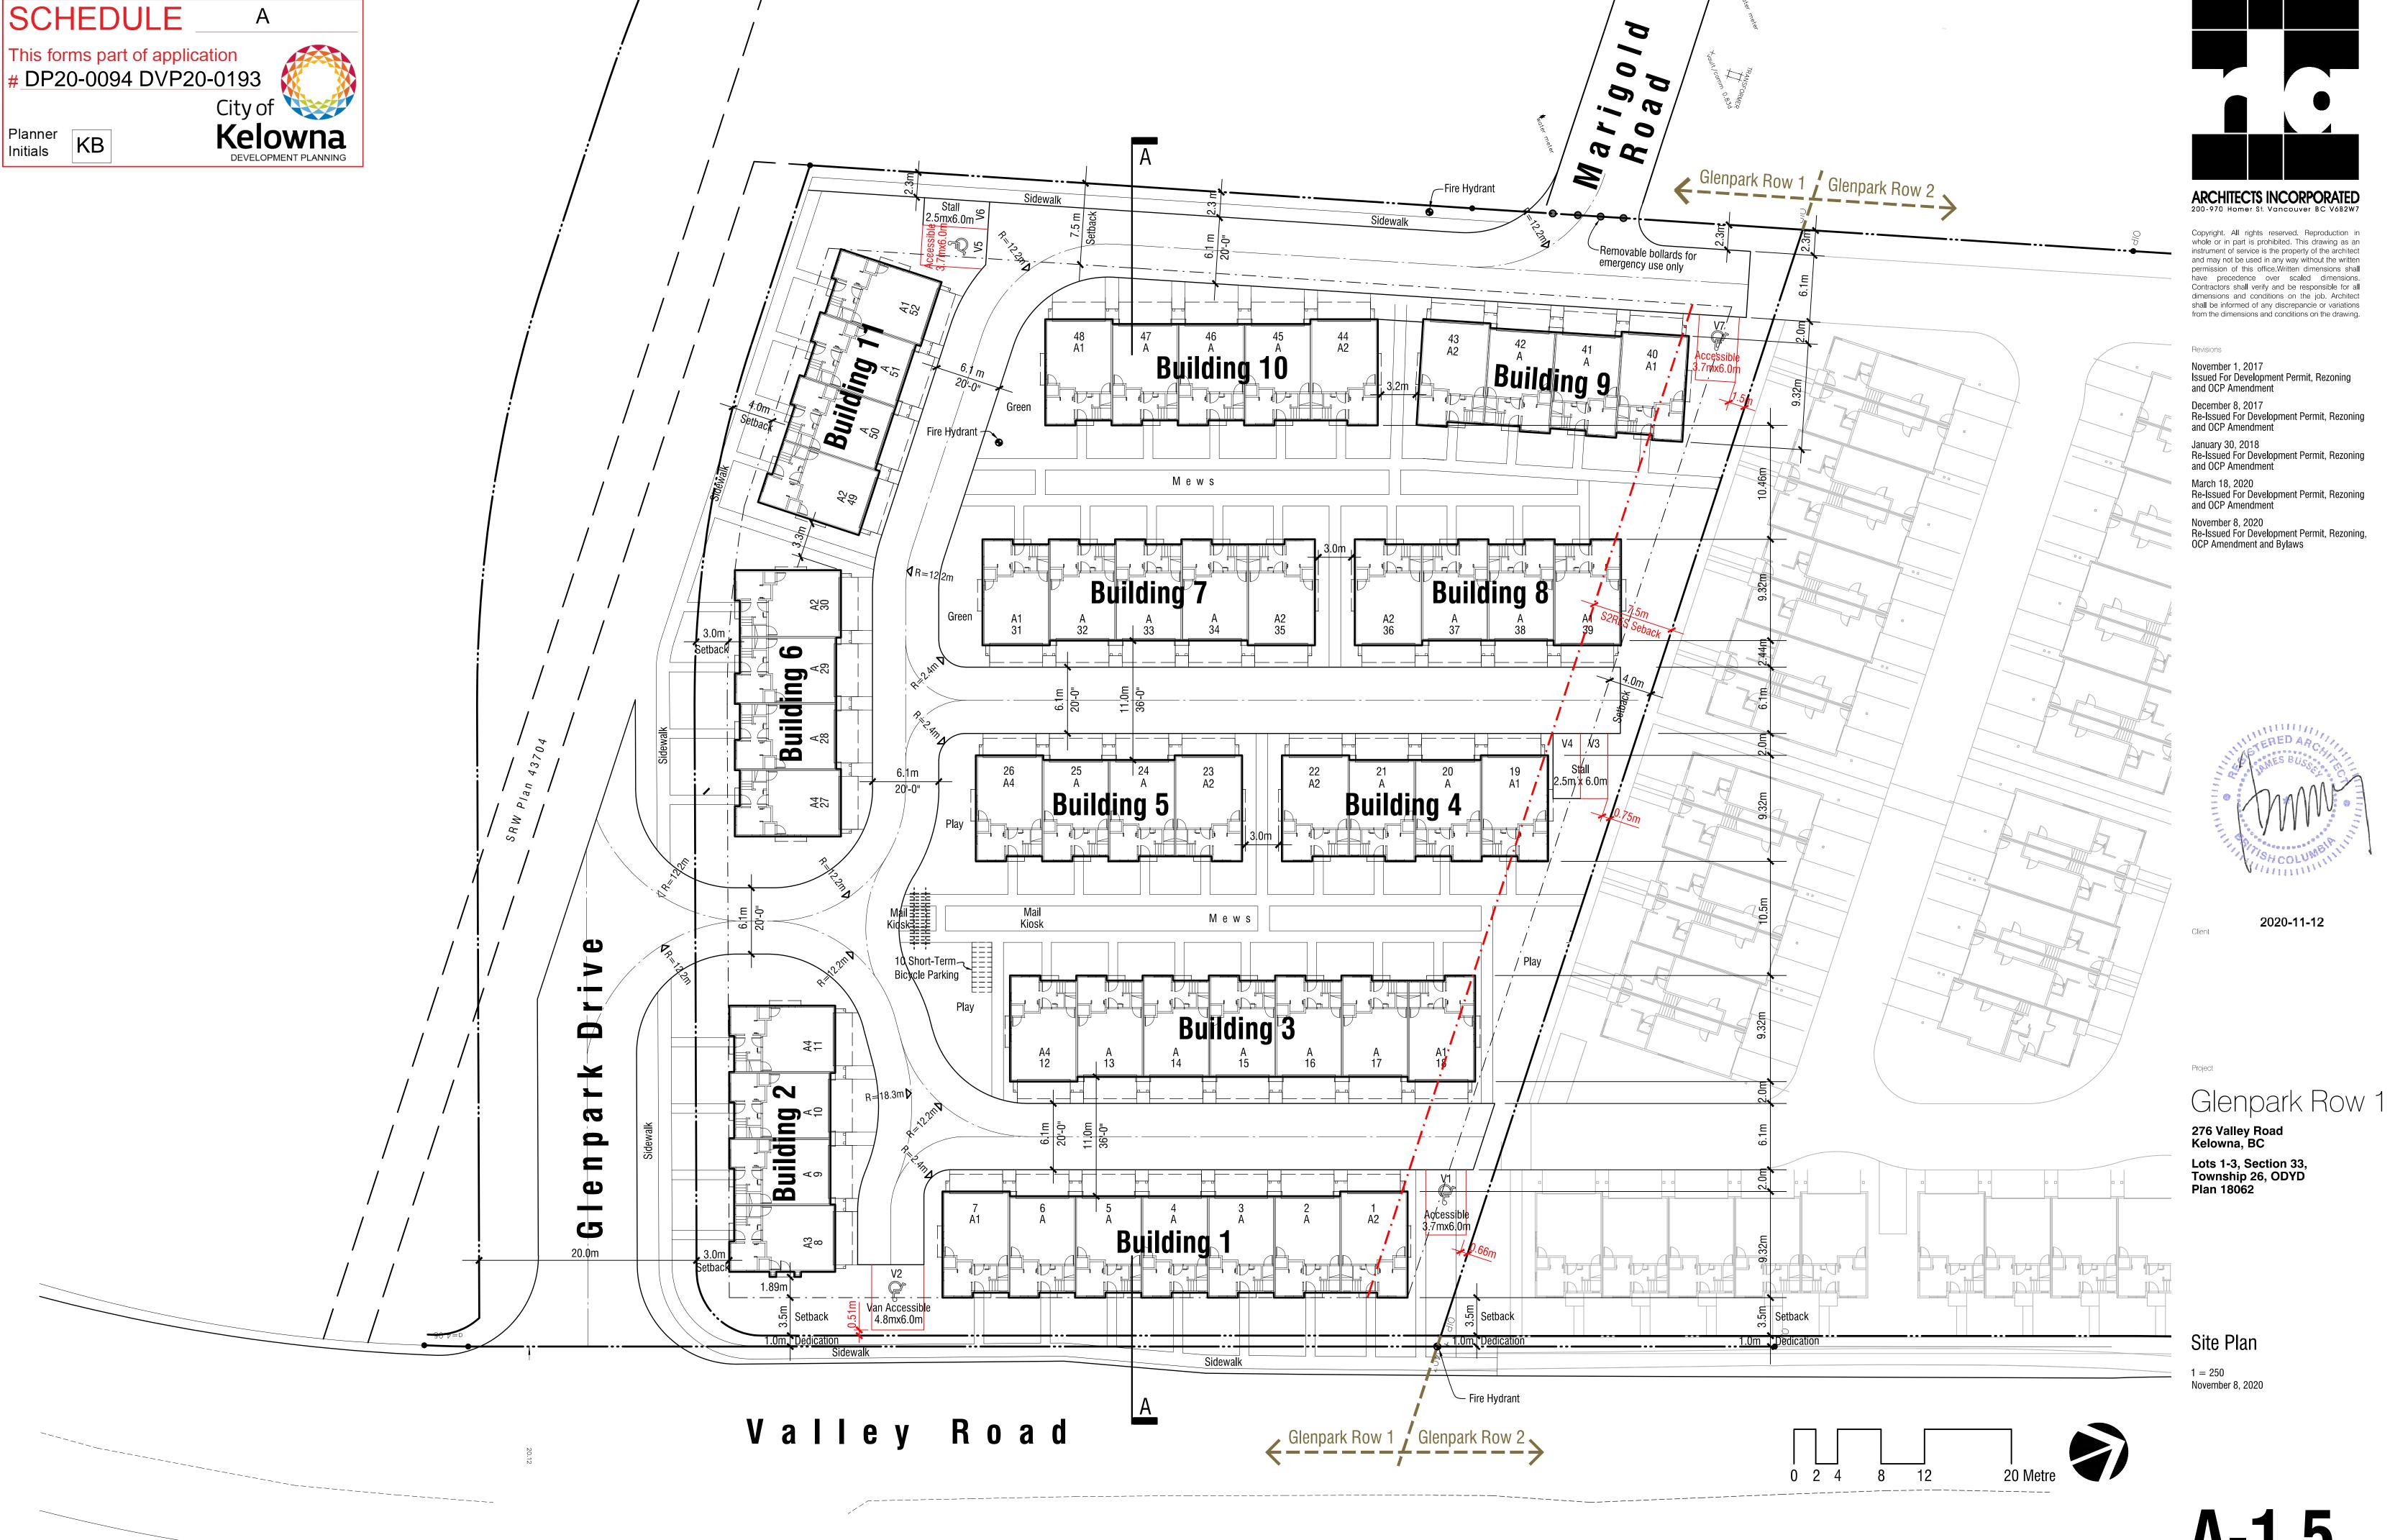

#### 5. INDEMNIFICATION

Upon commencement of the works authorized by this Permit the Developer covenants and agrees to save harmless and effectually indemnify the Municipality against:

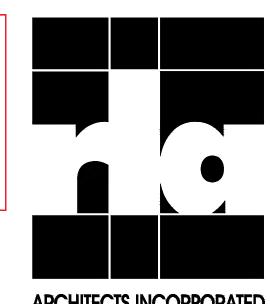

a) All actions and proceedings, costs, damages, expenses, claims, and demands whatsoever and by whomsoever brought, by reason of the Municipality said Permit.

All costs, expenses, claims that may be incurred by the Municipality where the construction, engineering or other types of works as called for by the Permit results in damages to any property owned in whole or in part by the Municipality or which the Municipality by duty or custom is obliged, directly or indirectly in any way or to any degree, to construct, repair, or maintain.

The PERMIT HOLDER is the <u>CURRENT LAND OWNER</u>. Security shall <u>ONLY</u> be returned to the signatory of the Landscape Agreement or their designates.
