AND FURTHER THAT final adoption of the Zone Amending Bylaw be considered subsequent to the requirements of the Development Engineering Branch being completed to their satisfaction

2.0 Purpose

To amend the Official Community Plan Future Land Use Designation and to rezone portions of the subject properties in order to accommodate the development of a single family subdivision.

3.0 Community Planning

This application is before Council requesting approval to amend the OCP future land use designation and rezone portions of the Kirschner Mountain Development. The detailed lot configuration and road design has now been created for this portion and this application is intended to align the zoning and OCP designations with the proposed lot layout. The overall proposal is in general accordance with the Official Community Plan and will result in a net gain in natural open space.

Planning staff have completed a detailed review of this proposed OCP and rezoning amendment and have been working with the applicant to ensure long term protection of steep slopes and environmental features. In addition, staff requested the applicant to provide a 15m buffer between agricultural land and the proposed residential development on the eastern portion of the subject property. Staff will work with the applicant through the development permit and subdivision process to ensure the above mention comments as well as the technical comments identified under section 5.0 of this report are met.

The proposed amendments are to reflect the more detailed site development that has resulted in the proposed subdivision layout.

4.0 Proposal

4.1 Project Description

The applicant is proposing to amend the OCP future land use designation and rezone parts of the subject properties required to facilitate the development of the next phase of the Kirschner Development.

4.2 Site Context

Subject Property Map:

The subject property is located in the Kirshner Mountain development in a predominantly single family neighbourhood. Adjacent land uses are as follows:

Orientation	Zoning	Land Use
North	RU1h - Large Lot Housing (Hillside Area)	Single/Two Unit Residential
East	A1 - Agricultural 1	Agricultural
South	A1 - Agricultural 1	Agricultural
West	RU1h - Large Lot Housing (Hillside Area)	Single/Two Unit Residential

5.0 Current Development Policies

2.1 Kelowna Official Community Plan (OCP)

Future Land Use

Single/Two Unit Residential (S2RES)¹: Single detached homes for occupancy by one family, single detached homes with a secondary suite or carriage house, semi-detached buildings used for two dwelling units, modular homes, and those complementary uses (i.e. minor care centres, minor public services / utilities, and neighbourhood parks), which are integral components of urban neighbourhoods. This designation applies to suburban hillside areas where slopes are over 20%. Subdivisions on hillsides over 20% slope will be required to rezone to a hillside zone.

Development Process

Sensitive Infill.² Encourage new development or redevelopment in existing residential areas to be sensitive to or reflect the character of the neighborhood with respect to building design, height and siting.

Housing Mix.³ Support a greater mix of housing unit size, form and tenure in new multi-unit residential and mixed use developments.

5.0 Technical Comments

Most of the technical comments will be addressed at subdivision preliminary layout review stage. However, the following comments are included for Council's information.

5.1 Park comments

- Cross walks will be required wherever a trail crosses or exits onto local road
- Trail alignments will be confirmed in the field by GPS and approved by staff
- Several public access walkways will be required for maintenance and pedestrian access to park land. These walkways will be required to be built to subdivision standards and include a 1.2 m high black vinyl coated chain link fencing 6 inches inside private property lines
- The neighborhood park will be dedicated to the City of Kelowna at time of final subdivision approval
- Interim access, until a through road is constructed needs to be provided for the public between the natural area park and neighborhood park
- Trail connections to correspond with proposed utility right of ways where appropriate
- Crosswalk over Loseth Rd to correspond with the existing trail leading to the Bella Vista park
- Barrier curb required on all park/road frontages
- Water service to the neighborhood park to be provided by the developer prior to final subdivision approval
- Applicant to build trail network as per OCP amendment OCP15-0015.

¹ City of Kelowna Official Community Plan - Future Land Use Chapter.

² City of Kelowna Official Community Plan, Policy 5.22.6 (Development Process Chapter).

³ City of Kelowna Official Community Plan, Policy 5.22.11 (Development Process Chapter).

5.2 Policy and Planning

- Policy & Planning has no concerns with the applications. The changes are minor in nature and reflect refinements that adhere to the vision of the OCP.

5.3 Development Engineering Branch

- All the offsite infrastructure and servicing requirements are addressed in the Development Engineering PLR report under file S16-0069.
- Proposed amendments will have no impact on existing municipal infrastructure.
