February 26th, 2019

3089 Appaloosa Rd
Kelowna, B.C.
V1V-2G8

1571937 Alberta Ltd.

Rezoning property at 3089 Appaloosa Road from A1 to I6. This parcel of land is 64.3 m by 115.45 m Which is far greater than is minimum for an I 6 Zone requirements.

The property at 3089 Appaloosa Road rises slightly from east to west along the frontage, and slopes downwards from the road to the rear of the property by roughly twenty feet. Currently this property is developed with a residential building located adjacent to the Appaloosa Road property line, And several out buildings, mainly though the property is undeveloped. The owner wishes to change the zoning on this property to make better use of the property, to condense the growth of Kelowna and not have pockets of underutilized land. I have been informed that there is currently a lack of Low Impact Transitional Industrial Land in the City of Kelowna.

3089 Appaloosa Road

Zone I 6

Lot	43	Plan	18861	KID	2832251
		PID	008-202-991		

Subdivision Regulations

Lot Size	Min.	40 m wide
Lot Size	Min	50 m depth

Lot Area is	78,030 sq. ft.	7 249 m2
Permittable Building Area is	28,160 sq. ft.	2 616 m2

Future plans for an industrial use building m2

3189 Appaloosa Road

Lot Size	64.43 m exceeds lot width
Lot Size	115.45 m exceeds lot depth

Maximum Building Height 9.5 m

Setbacks

Front Setback	4.5 m from buildings and structures
Side Setback	4.5 m from buildings and structures
Rear Setback	30 m from residential / 7.5 m from industrial

No uses that would create a nuisance. NO outdoor excess of noise, odour, earth borne vibrations, Heat, high brightness lighting, or light emissions. Autobody repair paint shops not permitted

Only one single detached residence is permitted.

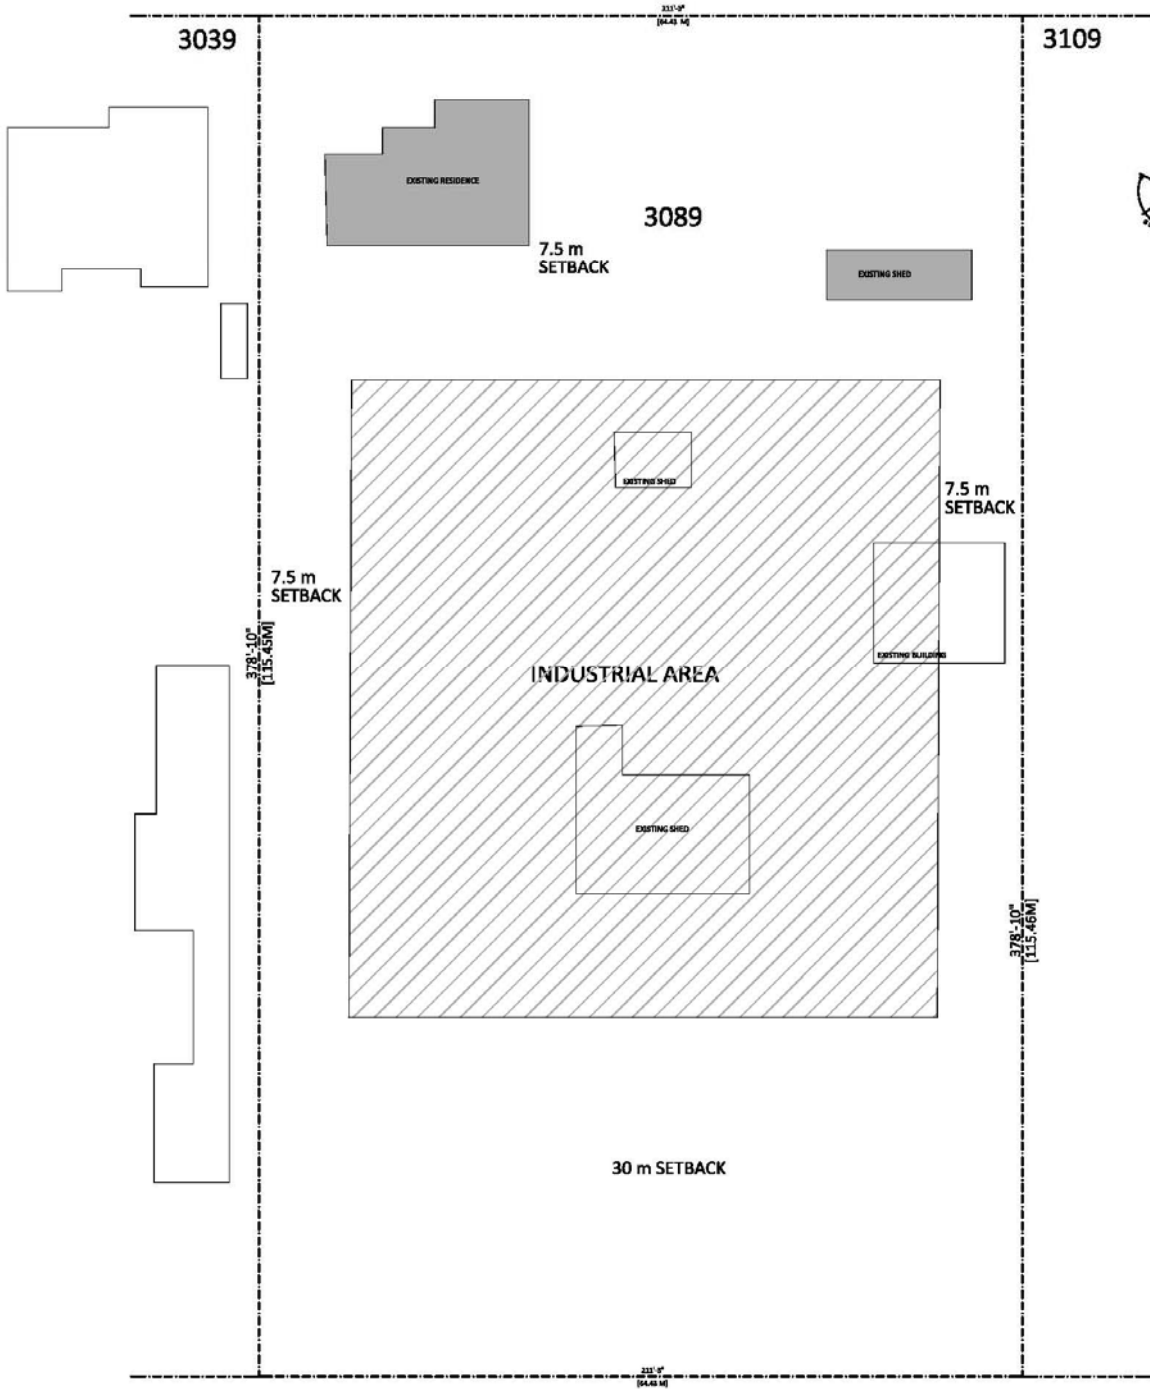

The OWNER has expressed interest in building two general industrial use buildings on this Site. Retaining the current residents building and shed (225.3 m2) and develop an industrial building with loading docks and sufficient parking.

The proximity to Sexmith allows for ease of slight increase in vehicular transportation and Bus Transportation is nearby on the highway. Allowing for the ebb and flow of new workers. The type of land use allowed would not increase the volume of noise to the area. After work hours would return the Decimal level of noise to its residential levels.

Upon talks with CTQ Consultants Ltd. Eight of the 16 or so property owners are getting involved at this stage to proceed with initial talks about the cost estimate of the frontal improvements to current standards. The owners that are on board this rezoning are in discussion on how to cover the entire cost of upgrading the services along Appaloosa Road. How to deal with the owners who are latecomers to this project is to be discussed in further meetings.

Light Industrial and residential uses located in areas as a transition between residential and industrial must include provisions for residential use as live\ work space. Goal is to keep the residential component adjacent and the industrial component together as much as possible. Rezoning from A-1t o I 6 would give additional much required low industrial use office and warehouse space- filling the need for such space.

APPALOOSA ROAD

CITY OF KELOWNA
MEMORANDUM

Date: March 4, 2019
File No.: Z19-0052
To: Planning & Development Services Department (BC)
From: Development Engineer Manager (JK)
Subject: 3089 Appaloosa Rd., Lots 43, Plan 18861 A1 – I6

Development Engineering has the following comments and requirements associated with this application rezone the subject property from A-1 to I6 are as follows:

1. General

- a) Access to the subject lots must be achieved off of Appaloosa Road and exit on Palomino Road is designated as a lane Palomino will be exit only to Arab road. Until such time that Palomino Road is fully built to SS-R5 Urban Collector Class 1 and second access to Appaloosa north from east end of Palomino Road. CTQ Consultants Ltd. has created a master plan for Area.

2. Geotechnical Study

We recommend that a comprehensive geotechnical study be undertaken over the subject property. The geotechnical study should be undertaken by a Professional Engineer or a Geoscientist competent in this field. This study should analyse the soil characteristics and suitability for development of the requested zoning. As well, the study should address drainage patterns including the identification of ground water and the presence of any surface springs and the suitability of the lands for disposal of site generated storm drainage. In addition this study must describe soil sulphate contents, the presence or absence of swelling clays.

3. Sanitary Sewer System

- a) The developer's consulting mechanical engineer will determine the development requirements of the proposed development and establish the service needs. Only one service per lot will be permitted for this development. There is an existing 100mm PVC sanitary service to lot.
- a) The Connection Area #35 charge is currently set by Bylaw at \$13,300 per Single Family Equivalent (SFE). This Bylaw was reviewed for and accepted by Council in 2018.

determined by the following formula: the first 0.36 acres of developed land or portion thereof equals 1 SFE. Thereafter 1.48 Acres per acre of developed land.

The assessed value is 5.14 SFE's is **\$68,415.20**

4. Water Servicing Requirements

This development is within the service area of the Glenmore Ellison Irrigation District (GEID). The developer is required to make satisfactory arrangements with the GEID for these items. All charges for service connection and upgrading costs are to be paid directly to the GEID. The developer is required to provide a confirmation that the district is capable of supplying fire flow in accordance with the City of Kelowna current Bylaws and Policies.

5. Storm Drainage

A comprehensive site drainage management plan and design to comply with the City's drainage design and policy manual By-Law 7900 is required.

6. Road Improvements

- a.) The frontage of Appaloosa Road will be upgraded to a full (SS-R5) urban standard in accordance with Bylaw 7900, complete with curb and gutter, Sanitary and storm works, sidewalk, fillet paving, landscaped and irrigated boulevard, lane markings, street lighting, removal and/or relocation existing utilities as may be required, etc.
- b.) Palomino Road at the rear of the property will be constructed to a 6.0m lane Standard with street light in ultimate locations with ditching and storm works to CTQ master plan, curb, gutter, sidewalk, fillet paving, storm drainage works which extends and connects to the municipal system, landscaped and irrigated boulevard, lane markings, removal and/or relocation existing utilities as may be deferred until second out to Appaloosa at east end is completed. The developer is responsible for contributing for their half of Palomino road for the combined frontage of the subject property. The cash in lieu of construction for these works is \$60,230.63
- c.) The Appaloosa Properties will work together in completing all roads, Water, Sanitary and storm works for Appaloosa, Palomino, Arab roads. CTQ Consultants Ltd. has created a master plan for Area.

7. Road Dedication and Subdivision Requirements

- (a) Grant Statutory Rights Of Way if required for utility services.
- (b) If any road dedication or closure affects lands encumbered by a Utility right-of-way (such as Hydro, Telus, Gas, etc.) please obtain the approval of the utility. Any works required by the utility as a consequence of the road dedication or closure must be incorporated in the construction drawings submitted to the City's Development Manager.

8. Power and Telecommunication Services

The services to this development are to be installed underground. It is the developer's responsibility to make a servicing application to the respective utility companies. The utility companies are then required to obtain the city's approval before commencing their works.

9. Design and Construction

- a) Design, construction supervision and inspection of all off-site civil works and site servicing must be performed by a Consulting Civil Engineer and all such work is subject to the approval of the City Engineer. Drawings must conform to City standards and requirements.
- b) Engineering drawing submissions are to be in accordance with the City's "Engineering Drawing Submission Requirements" Policy. Please note the number of sets and drawings required for submissions.
- c) Quality Control and Assurance Plans must be provided in accordance with the Subdivision, Development & Servicing Bylaw No. 7900 (refer to Part 5 and Schedule 3).
- d) A "Consulting Engineering Confirmation Letter" (City document 'C') must be completed prior to submission of any designs.
- e) Before any construction related to the requirements of this subdivision application commences, design drawings prepared by a professional engineer must be submitted to the City's Works & Utilities Department. The design drawings must first be "Issued for Construction" by the City Engineer. On examination of design drawings, it may be determined that rights-of-way are required for current or future needs.

10. Servicing Agreements for Works and Services

- a) A Servicing Agreement is required for all works and services on City lands in accordance with the Subdivision, Development & Servicing Bylaw No. 7900. The applicant's Engineer, prior to preparation of Servicing Agreements, must provide adequate drawings and estimates for the required works. The Servicing Agreement must be in the form as described in Schedule 2 of the bylaw.
- b) Part 3, "Security for Works and Services", of the Bylaw, describes the Bonding and Insurance requirements of the Owner. The liability limit is not to be less than \$5,000,000 and the City is to be named on the insurance policy as an additional insured.

11. DCC Credits

None of the required improvements qualify for DCC credit consideration, as these levies are collected as cash in lieu.

12. Bonding and Levies Summary

Levies

Palomino Road Deferred revenue	\$60,230.63
Connection. Area #35	\$68,415.20
Total levies	<u>\$128,645.83</u>
