Monday, November 28, 2016

Dear Dave,

Re: Parking Plan Around Kelowna General Hospital (KGH)/ Cancer Agency

KSAN supports the recent initiative by the City to improve the KGH/Cancer Agency street parking in order to improve the liveability of our neighbourhood.

KSAN notified about 600 of the adjacent neighbours to inform them of the May 2016 City's Open House. We were happy that the response to this meeting was good (as well as the on-line survey). The second Hospital Area On-Street Parking Plan Open House held on November 03, 2016 with the recommended plan and the parking studies, were also well attended by the neighbours. KSAN appreciated you and Derek Edstom, Director of Real Estate, attending our September 19, 2016 KSAN meeting to discuss the first draft of the Parking plan and answer our many questions.

KSAN, in particular, supports the plan to : enhance resident Parking Program Council Policy which includes criteria and a method to consider future requests for implementation of (Resident) Permit Only Parking restrictions.

We, therefore, hope that the Mayor and Council will also support the recent Hospital / Cancer Agency Parking Plan.

Yours truly,

Pat Munro, chair
KSAN
