

November 22, 2016

Seniors Outreach Services Society is proud to be an active participant on the Community for All Stakeholder Advisory Committee and involved in the development of the actions within the Community for All Action Plan. Seniors Outreach Services Society sees the significant benefits our entire community will receive as a direct result of implementing the Community for All Action Plan.

One of the strengths of this Plan includes the collaboration and partnerships with, and commitment from, key community stakeholders. The implementation of the actions and fostering an all ages and abilities culture will require the combined efforts of our community.

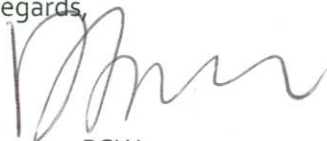

Seniors Outreach Services Society has committed to leading the following actions:

- Partner with School District #23 to connect seniors and youth through after-school work programs (Inclusive Community)

Seniors Outreach Services Society believes that a strong, safe, active and vibrant community is a community where all ages and abilities are welcomed and will flourish. We value the invitation to be part of this collaborative process and have made several connections within the community that will enhance our future work.

Thankyou.

Best Regards,

Vi Sorenson, BSW
