Integrated Survey Area No. 4, City of Kelowna NAD83 (CSRS) 4.0.0.BC.1

Grid bearings are derived from GNSS observations and are referred to the central meridian of UTM Zone 11 (117° West Longitude).

The UTM coordinates and estimated horizontal positional accuracy achieved are derived from dual frequency GNSS observations to CANNET Active Control Station KLO2.

This plan shows horizontal ground-level distances unless otherwise specified. To compute grid distances, multiply ground-level distance by the average combined factor of 0.999943. The average combined factor has been determined based on an ellipsoidal elevation of 338 metres.

This plan lies within the Central Okanagan Regional District.

The field survey represented by this plan was completed on the 2nd day of March, 2017.

Gary Borne, BCLS 958
