- Seeking a recommendation from the Committee regarding the form and character of the proposed dwelling.
- Responded to questions from the Committee.

HAC Discussion:

- Noted that the house should not be demolished, but would prefer to see an addition to the existing structure or even a carriage house added at the rear of the property instead of the detached garage which is proposed to be connected to the main dwelling via a breezeway.
- Noted the house should be added to the register and protected.
- Noted that foundation settlement along the Lake and due to recent flooding is common for structures of this age and due to the location.
- Noted that asbestos and lead paint are common in houses of this age and not valid reasons for demolition.
- Noted the house style is Georgian Revival and not late Vernacular Cottage.
- General agreement that the house does not add to the character of the area. The existing house is a striking example of a Heritage house on the Lake.
- Proposed house is too generic and needs to be a more striking design to replace the current dwelling.
- Proposed dwelling does not have Heritage attributes and the interpretation of the guidelines not applied well, materials of great concern including the use of vertical board and batten.
- Windows too contemporary and large – proportions don't correspond to the guidelines.
- House design too symmetrical (guidelines state asymmetrical design).

Moved by Brian Anderson/Seconded by Stoke Tonne
